

# SLA AIR

Stay comfortable and breathe clean with our intelligent split system air conditioner for heating and cooling.

Energy Efficiency

5 Speed Fan

Super Quiet Operation

Filter Cleaning Reminder

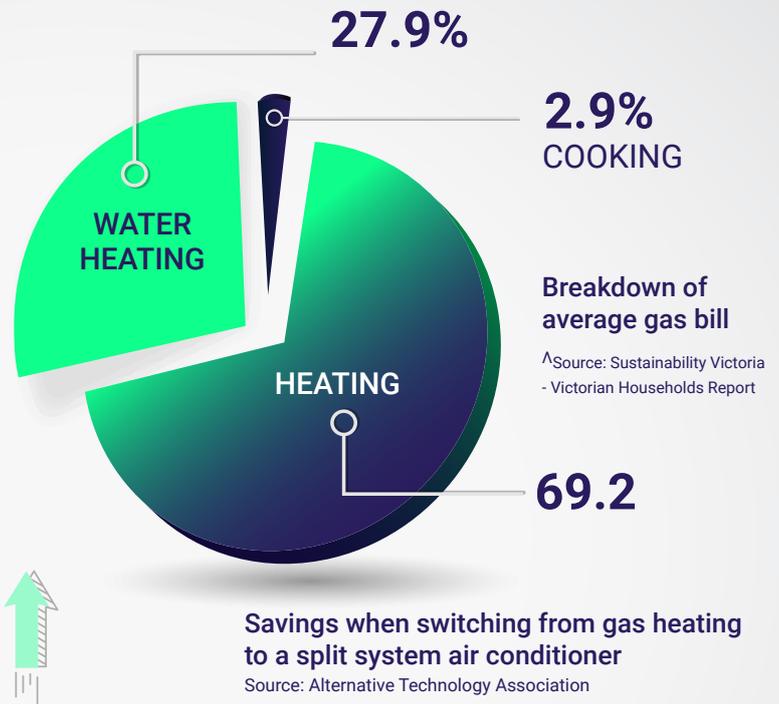

Experience year-round comfort with our cutting-edge split system heating and cooling air conditioner. Stay cozy during chilly winters and refreshingly cool throughout hot summers, all while saving energy and reducing your environmental footprint.

**Embrace efficiency without compromising on comfort and step into a world of ultimate climate control.**

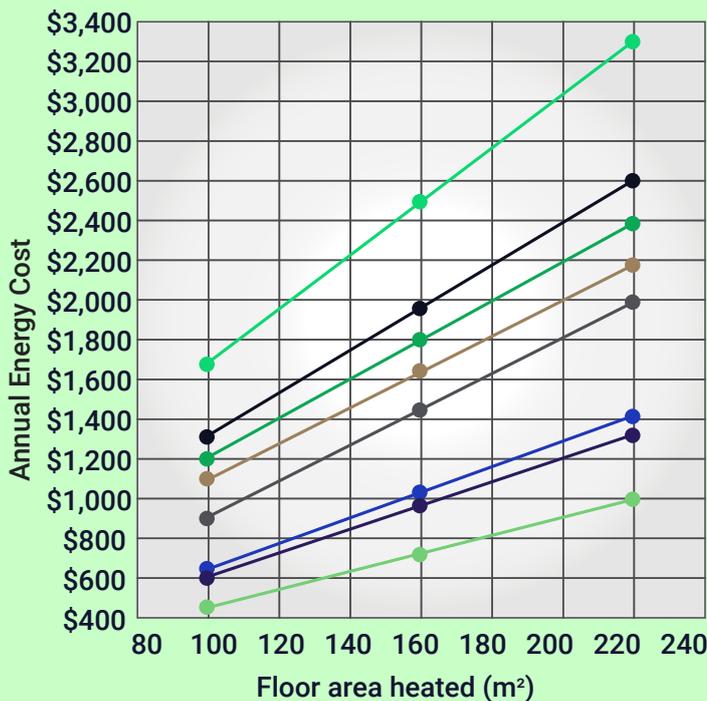

# In Recent Years Gas Prices In Australia Have Witnessed A Significant Surge, Creating Financial Challenges For Consumers.

Regrettably, industry experts anticipate that this upward trend will persist due to the escalating global demand for gas. As Australian gas exporters capitalize on the opportunity to secure higher prices from international markets, the burden falls on Australian residents who find themselves paying more. Considering that **gas heating constitutes nearly 70% of our overall gas expenses<sup>^</sup>**, the prospect of increasing gas prices raises valid concerns.

## Discover The Solution To Rising Gas Prices For Australian Households.

Explore alternative heating options. Embrace the **smart choice of electricity**, not only offering **cost savings** with its **abundant supply** but also serving as a **renewable energy source**. By opting for split system air conditioners powered by electricity, you can enjoy substantial savings while efficiently heating your home, contributing to a cleaner and greener environment for years to come.

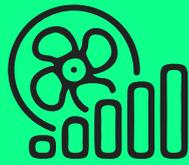

Our state-of-the-art split-system air conditioner offers exceptional temperature control for your spacious living areas, ensuring year-round comfort. With intelligent airflow features, efficient heating and cooling capabilities, and a variety of fan modes, you can effortlessly maintain your ideal comfort zone, no matter the weather conditions.

Say goodbye to temperature fluctuations and embrace uninterrupted comfort in every season.

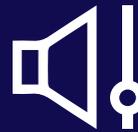

### Energy Efficiency

Energy efficiency is a core design element for all SLA air conditioners. Maintain your ideal comfort levels with less energy and save on your electricity bills.

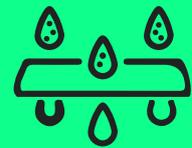

### 5 Fan Speed

From Turbo Mode to gentle breeze, choose the airflow to suit your needs. Experience improved control over your room comfort with 5 fan speed options.

### Super Quiet Operation

Through efficient energy usage. SLA split system air conditioners maintain a low noise profile across the whole range. Enjoy whisper-quiet operation as it keeps you comfortable, all year round.

### Filter Cleaning Reminder

Never forget filter cleaning again! Receive handy reminders when it comes time to clean the filter, and ensure the air in your room is always as fresh as can be.

### 30 Seconds Fast Cooling

The SLA AI Ultra Inverter air conditioner ensures rapid cooling air and brings down air outlet temperature from 27 degree to 18 degree in just 30 seconds.

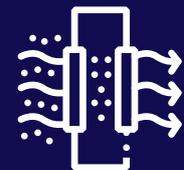

### Ultra Inverter

Ultra-Inverter Compressor technology designed by SLA for Ultra-low frequency operation ensures 40% Energy Saving.

### R32 Refrigerant

The R32 refrigerants are more efficient than R22 and R410. Its Global Warming Potential is also 30% lower than R410.

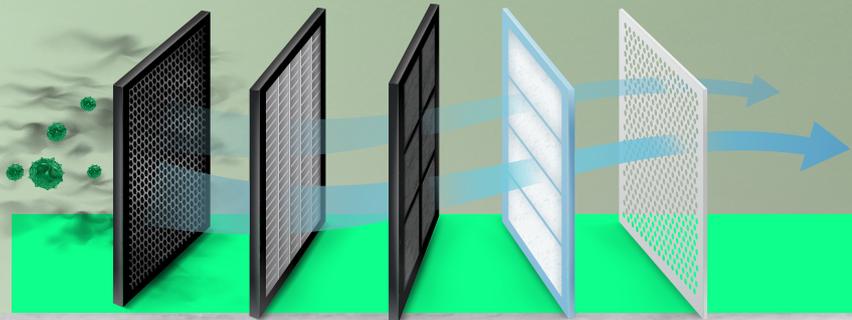

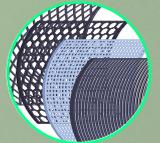

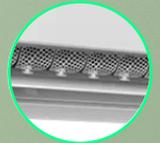

### Silver Ion Filter

The Silver Ion Filtering SLA air conditioners ensure that air inside the room is free of bacteria and fungi.

## Gentle Breeze Technology

With up to 1,422 micro-holes perfectly spaced across the S-Shaped airflow vanes, air is more gently and widely dispersed throughout the room. Avoid harsh, direct cold drafts – and unlock superior airflow comfort.

## Smart Airflow

### Rising- Style Heating

Because warm air rises, airflow is directed to the base of the room first, maximizing the heating efficiency.

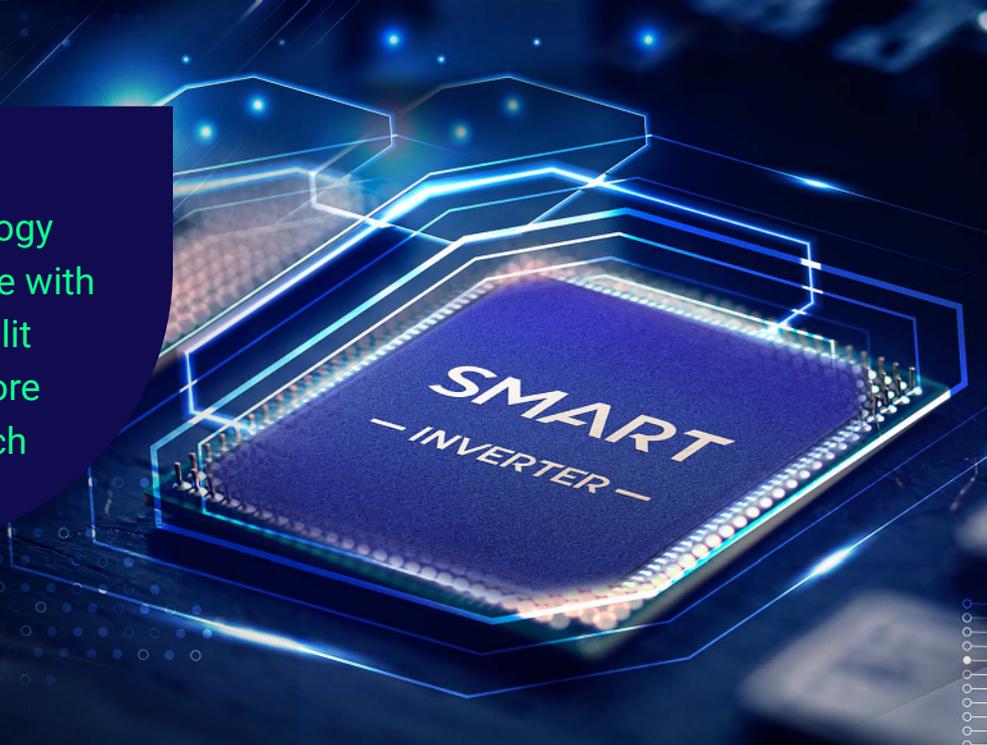

### Shower-style Cooling

Because cold air falls, airflow is directed to the top of the room first, for whole-room comfort.

## Clever Inverter

Unique SLA inverter technology ensures perfect performance with energy efficiency. Enjoy a split system that is faster and more proactive in helping you reach your comfort zone.

## Breathe Fresh Filtered Air

Keep your air clean and dust-free with the top mounted integrated filter. Efficiently removes dirt, pollen, and bacteria from the airflow so you can breathe fresh air.

## "I Feel" Mode

With a built-in thermometer, the remote control senses the temperature around it and communicates with the unit to intelligently maintain your perfect temperature and keep you comfortable.

## Rapid Action Temperature Control

Get comfortable quickly with powerfully fast heating or cooling in Turbo Start mode. No more waiting before getting to relax in your ideal temperature.

## Cleans Itself and Cleans the Air

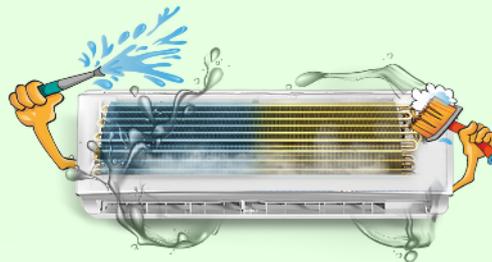

The 4-Step Auto Clean Mode uses water molecules in the air to help carry away accumulated dirt, bacteria, and impurities. Plus, you get friendly reminders when it is time to clean your filter. Safeguard air quality without the added maintenance.

## Sleep Mode

Sleep soundly even on the warmest or coolest of nights. Once activated, Sleep Mode gently maintains room temperature whilst ensuring quiet operation throughout the night.

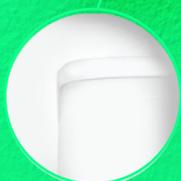

## Easy-Clean Design

Designed to make manual cleaning as easy and effortless as possible; no more struggles. Key components are simple to take apart, wash, and then reassemble.

## 60°C Cooling

There's nothing worse than an air conditioner giving up on the days when you need it most. SLA will help you keep your cool with the inclusion of an air-cooled e-box in every split system unit. Cooling is continuous in up to 60°C outside temperature, and operates at 100% cooling capacity in up to 50°C, so you never need to sweat it out!
